

RIYA RENS

Fourth-Year Computer Science Engineering Student

+91-9778461045 riyarens808@gmail.com

LinkedIn GitHub Portfolio

Professional Summary

Fourth-year Computer Science Engineering student with hands-on experience in mobile and full-stack application development using React, React Native, TypeScript, JavaScript, Flutter, Node.js, and Firebase. Experienced in building AI-powered applications integrating machine learning, OCR, APIs, and cloud services. Strong foundation in software development, problem-solving, and application integration, with an interest in building scalable and AI-driven solutions.

Skills

- **Programming:** Python, Java, C, JavaScript, TypeScript
- **Web & Software Development:** React, React Native, Node.js, Flutter, HTML, CSS
- **Databases:** SQL, MongoDB, Firebase
- **AI/ML:** Machine Learning, Artificial Intelligence, Scikit-learn, Google Gemini API, OCR
- **Cloud & Tools:** AWS, Azure, Git, GitHub, VS Code, Postman, Android Studio, Jupyter Notebook
- **Testing:** Manual Testing, Functional Testing, Regression Testing, UI/UX Testing, Bug Reporting
- **Languages:** English, Malayalam, Hindi

Experience

QA Testing Intern – Docwo May–June 2026

- Performed manual, functional, UI/UX, validation and regression testing for web and mobile applications.
- Reported defects with detailed reproduction steps and collaborated with developers to verify fixes.

Open Source Contributor – OSQ Feb 2026–Mar 2026

- Contributed features and fixes using Git workflows while collaborating with open-source developers.

Android App Development Intern – ICT Academy of Kerala Jul–Aug 2024

- Developed Android application features using Android Studio and completed the internship with Grade A.

AI & Robotics Intern – AccelMove Dynamics Jan 2024

- Completed an internship in AI and Robotics, gaining introductory exposure to AI concepts, robotics applications, and technology-driven problem-solving.

NEC 2024 Finalist – E-Cell, IIT Bombay Aug 2024–Feb 2025

- Participated in a 6-month national-level entrepreneurship challenge and secured 9th place nationally in the Advance Track.

Projects

SpendSense – AI-Powered Expense Tracker 2026

- Developed an AI-powered Flutter mobile application for automated income and expense tracking using ML-based expense categorization, OCR receipt extraction, and SMS transaction parsing.
- Integrated Firebase for secure data storage and synchronization, with spending charts, monthly trends, budget alerts, and notifications.
- Implemented AI-driven spending insights to help users understand spending patterns and make informed financial decisions.
- **Technologies:** Flutter, Dart, Machine Learning, OCR, SMS Parsing, Firebase.

CosmoBot – AI Cosmetic Analyzer 2026

- Developed an AI-powered cosmetic ingredient analyzer using OCR and Google Gemini API to extract and analyze cosmetic ingredients.
- Implemented authentication and history tracking to allow users to securely access their previous analyses.
- Designed a responsive interface for uploading product images and displaying AI-generated ingredient insights.
- **Technologies:** React, TypeScript, Node.js, Firebase, Google Gemini API, OCR.

BorrowBox 2026

- Built a campus marketplace supporting borrow, buy/sell, and Lost & Found services.
- Developed a responsive user interface for browsing listings and managing marketplace activities.
- Integrated Firebase for backend services and data management.
- **Technologies:** React, Firebase, Node.js, JavaScript.

NovaStream Video Player 2024

- Developed an Android video player with playback and fullscreen controls.
- Implemented core video playback functionality using Android Studio.
- Designed an interface for controlling playback and improving the viewing experience.
- **Technologies:** Java, Android Studio, XML.

Achievements

- Tinkerhack 2026 – College Level Winner
- Tinkerhack Kerala 2026 – Top 300 Statewide
- Grace Hopper Celebration India (GHCI) 2026 – Selected Attendee
- THINKATHON Hackathon 2026 – 1st Prize

Certifications

- AWS Cloud Practitioner Essentials – AWS Training & Certification, 2026
- Introduction to Machine Learning – NPTEL
- Industrial Automation and Control – NPTEL
- Prompt Engineering for Everyone – IBM
- Cisco Networking Academy: CCNA (Introduction to Networks, Switching, Routing and Wireless Essentials, Enterprise Networking, Security and Automation), Introduction to Data Science, Introduction to Modern AI, Apply AI: Analyze Customer Reviews, Python Essentials 1 & 2
- Infosys Springboard: Basics of Python, Java Programming Fundamentals

Education

B.Tech in Computer Science Engineering , Jyothi Engineering College, Thrissur	2023–2027
CGPA: 8.02/10	
Class XII (HSE) , St Thomas HSS Thiroor, Kerala State Board	2021–2023
Percentage: 99%
